In partnership with Volunteering Australia, we are proud to co-host this conference, bringing together individuals, organisations, businesses, and communities to support, grow, and celebrate volunteering. Through key partnerships, we provide a range of services, support, and resources for over 2,000 volunteer-involving organisations and just under a million volunteers, contributing to positive volunteering experiences and the strengthening of communities.

Conference Overview

Conference theme

The theme for the 2026 National Volunteering Conference is ***Innovation and Impact: Reimagining Volunteering.***

Why this theme? Three years ago, at the last National Volunteering Conference, the National Strategy for Volunteering was launched, focused on creating conditions for volunteering to thrive, improving volunteer experiences and ensuring community impact. Innovation is central to achieving these goals—through technology, new and inclusive engagement, leadership and management models and evidence-based practices.

Fast forward to 2026, we now have National Strategy Action plans in place, and we came back together to implement change today to ensure volunteering thrives for future generations. The 2026 National Volunteering Conference will showcase how, through driving innovation and change, we are building a future where volunteering thrives.

About the conference program

The conference will launch with an evening reception on Tuesday 16 June, followed by two full days of interactive workshops, plenary sessions and networking opportunities. The conference dinner, held on Wednesday 17 June, featuring a keynote address, networking and celebrations. Activities will also extend to Friday 19 June, with workshops, tours and opportunities to see best-practice volunteer management, programs and projects first-hand.

The program is designed to include practical, strategic and research-focused sessions. Innovative approaches to volunteer engagement will be showcased, and speakers with deep, diverse expertise across the volunteering ecosystem will be featured.
